FKA: Belmont Technology, Inc.; Onshape is focused on cloud and mobile CAD, offering the first professional 3D CAD system that lets everyone on a design team work together using any web browser, phone, or tablet. Onshape helps companies design better products and bring them to market faster, offering real-time deployment, real-time data management and real-time analytics and controls. Using full-cloud CAD, engineers, designers and manufacturers get secure and simultaneous access to a single master version of their designs without the hassles of software licenses or copying files.
